## Art.3

### Admission requirements

The application for participation can be submitted by Italian or foreign citizens who are in possession of a master's degree<sup>3</sup> or a suitable qualification obtained abroad, that has been officially recognized as equivalent. The candidate who holds an academic qualification awarded abroad, that has not yet been recognized as equivalent, must accompany his or her application with whatever documents are necessary to enable the Admissions Commission – consistent with the rules in force in Italy and the country where the qualification was granted and the international treaties or agreements governing the recognition of qualifications for further education purposes – to assess the qualification solely for doctoral program eligibility purposes. The qualifications must therefore be accompanied by all the documentation specified in article 4 that is necessary for their assessment.

---

<sup>1</sup> The place is reserved for candidates who meet all the following requirements: 1) not in possession of Italian citizenship; 2) not in possession of a residency or domicile in Italy or not having carried out his/her main occupation in Italy for more than 6 months, even non-consecutive, in the last 3 years from the date of the deadline of the call; 3) having been accepted onto a Doctoral Research program held by a foreign University.

<sup>2</sup> The eligibility in question will be attributed on condition of the successful conclusion of the agreement with the co-financing company.

<sup>3</sup> The equivalence of the Degrees prior to Ministerial Decree no. 509 of 3 November 1999 to the Master's Degree classes must be self-certified by the candidate pursuant to Presidential Decree no. 445 of 28 December 2000, as amended by art. 15 paragraph 1 of Law no. 183 of 12 November 2011. The equivalence must be requested by the candidate at the University that issued the title, pursuant to the Ministerial Decree of 9 July 2009.

## Il Rettore

In the case that a candidate applies while awaiting graduation, his/her application will be considered "pending" and the candidate will have to submit certification (alternatively, for EU citizens only, self-certification pursuant to D.P.R. 28 December 2000, no. 445) of the degree title containing the exams taken with the corresponding grades and credits, the average grade of the exams, and the final degree grade by no later than the enrollment date for the PhD course as established in Article 8 of this announcement (October 21, 2024), under penalty of forfeiture of admission to the course in case of a positive selection outcome. If the candidate fails the procedure, he/she will be excluded.

Applications may only be accepted from individuals who have been awarded the qualification by and no later than 21 October 2024.

In the case of admission, candidates holding a degree obtained abroad (EU/Non-EU countries) are required to submit the following documentation to the Research Office ([ricerca@unier.it](mailto:ricerca@unier.it)) no later than the enrollment date for the PhD course as established in Article 8 of this announcement (October 21, 2024), under penalty of forfeiture of admission to the PhD course:

- Certification (alternatively, for EU citizens only, self-certification pursuant to D.P.R. 28 December 2000, no. 445) of the official foreign degree, and the corresponding final grade, equivalent to the second cycle according to the framework of qualifications of the Bologna Process and level 7 according to the European Qualifications Framework (EQF) obtained at a higher education institution that allows the continuation of studies at the next level (third cycle of the Bologna Process/level 8 EQF), and that does not present any "substantial difference" according to the principles of the Lisbon Convention and the national methodology adopted by the Italian ENIC-NARIC center (CIMEA)<sup>4</sup>. If the document is not already in English, it will be mandatory to attach a sworn translation into English or Italian.
- Certification/self-certification pursuant to D.P.R. 28 December 2000, no. 445 attesting to the exams taken (transcript). If the document is not already in English, it will be mandatory to attach a sworn translation into English or Italian;
- Diploma supplement or statement of comparability issued by CIMEA or other ENIC-NARIC centers, and any other documentation useful for evaluating the eligibility of the degree for the chosen course; alternatively, a declaration of value in loco is accepted.

It is also specified that all candidates who submit self-certifications of their degree title, pursuant to DPR no. 445 of 2000, will be admitted to the selection conditionally upon verification of the self-certified declarations and that the University may, at any time during the procedure, even after the start of the PhD course, carry out checks on the truthfulness of the submitted declarations.

In the case of false declarations, the University may order, by a reasoned decision of the Rector, the exclusion of candidates from the selection procedure or the PhD course, without prejudice to the criminal responsibilities arising from this.

The research project, written in Italian or English and attached to the application form, under penalty of exclusion, must concern one of the topics in Annex 1 to this call.

Candidates who apply for the scholarship reserved for those who hold a foreign degree will have to submit a research project written in English.

The project must bear, in no more than 6,000 characters, spaces included, **excluding bibliographic references:**

- a. title;
- b. object of study;
- c. current state of research (national and international);
- d. purpose of the research;
- e. methodology;
- f. main bibliographic references.

## Il Rettore

The research project will be evaluated by the Commission according to the following criteria:

- relevance and coherence with the chosen topic: the project deals with a topic of considerable relevance and/or importance and is consistent with the chosen topic;
- novelty: the project addresses a theme on which there is still no complete doctrinal analysis and/or proposes a perspective of innovative analysis;
- comparative/international dimension: the project aims at examining the legal systems of other states and/or at examining the chosen topic within the perspective of an international and/or European order;
- interdisciplinarity: the project presents an interdisciplinary profile with respect to one or more PhD subjects;

It will therefore be examined, in compliance with the provisions of the announcement, the documentation presented by the candidate and, specifically, the data relating to the university training course, any further training courses and research experiences, and publications (if applicable). It is recommended that candidates include their publications, if any, to the application, as indicated in the art.4, together with a list of the included publications. Publications will be evaluated by the Commission, taking into account their scientific originality, methodological rigour, relevance to the topics studied in the doctorate, and the ranking of the journals and/or publications.

Candidates who get a score of less than 20/30 in the evaluation of the university curriculum, titles, publications, and the research project are not admitted to the oral exam.

The results of the evaluation of the university curriculum, the titles, any publications, and the research project are published on public in the University website before the date of the oral exam.

The oral exam may be held online, by using the link to a digital platform (e.g., MS Teams, Zoom, etc) provided by the University. Candidates admitted to the interview may avail themselves of this possibility by sending an e-mail request to [ricerca@unier.it](mailto:ricerca@unier.it) at least 7 days before the date of the oral test.

Candidates must be available at the personal address, communicated in the request, on the day and time indicated for the oral test.

For identification purposes and under penalty of exclusion from the competition, candidates, before the interview begins, must identify themselves by showing an identity document, preferably the same one that was indicated during admission.

The European University of Rome accepts no responsibility if technical reasons prevent the smooth running of the oral test.

The interview is mainly focused on the research project presented by the candidate and on topics related to the subjects covered by the doctorate program. During the interview, the Commission evaluates the level of in-depth knowledge of the candidate on the research project topic and literature, as well as his/her ability to carry out argued reasoning and to establish relationships with concepts typical of the scientific-disciplinary sector to which the research project refers.

## Il Rettore

In the case of submission of more than one research project, the candidate will have to undertake further interviews on the research projects submitted.

The candidate must also demonstrate a good knowledge of the English language. The assessment of the English language will cover both reading, speaking and translating skills.

## Art. 6

### Selection Committee

The Selection Board for the admission to the PhD Course is appointed by the Rector on the proposal of the Board of Professors of the Doctorate. The Board is composed of a minimum of 3 to a maximum of 5 members, including the president, to which can be added no more than two experts, including non-Italian nationals, chosen from public and private research entities. The appointment of experts is mandatory in the case of agreements or arrangements with small and medium-sized enterprises. ### Art. 9

#### Scholarships

Scholarships, equal to 16,243.00 gross of social security charges borne by the beneficiary, as established by Ministerial Decree 247 of 23 February 2022, are awarded, after comparative evaluation of the merit and according to the order defined in the respective merit rankings formulated by the selection board.

The number of scholarships may be increased as a result of additional funding from public and private entities, provided that the relative agreements are stipulated on a date prior to the completion of the admission procedure.

The increase in the number of scholarships may increase the number of positions available, based on the University Governing Bodies' decision, taken before the completion of the tests. Any increase in the number of scholarships and positions available will be announced exclusively on the University's website.

The scholarships have an annual duration and are renewed on condition that the PhD student has completed the program of activities planned for the previous year, according to the procedures established by the Board of Professors of the PhD, without prejudice to the obligation to provide the scholarship following a favorable verification.

In order to avail of the scholarship, the successful candidate's total annual personal income cannot exceed the annual amount of the scholarship. Income of a financial nature and any other amount of a recurring nature, except for those of an occasional nature, contribute to the determination of gross income.

The monetary amount of the scholarship is increased by a maximum of 50% for a total period not exceeding 12 months, if the PhD student is authorized by the Board of Professors to carry out research in a foreign country.

PhD students with a scholarship reserved for citizens of foreign countries, may be authorized by the Board of Professors to spend periods of research only in countries different from their country of origin.

PhD students with PNRR scholarships, financed under D.M. No. 630/24, pursuant to Art. 7, para. 1, lett. c. and d., will have the obligation to spend a period of study and research in the enterprise of a minimum of six (6) to a maximum of eighteen (18) months, including non-consecutive, over the three-year period; they will be required to spend a period of study and research abroad, of six (6) months, including non-consecutive time periods, over the three-year period.

## Il Rettore

scholarship.

Students in receipt of a scholarship for a PhD program, advanced, or specialization course, even for a single year, cannot apply for a second time.

It is not possible to award PNRR PhD scholarships to candidates who have renounced the aforementioned scholarships from the 38th cycle and the 39th cycle, in accordance with Ministerial Decree No. 630/2024.

At the moment of enrollment, students who are entitled to the scholarship must submit a declaration specifying their total gross personal income and the absence of any impediment or incompatibility as indicated in this paragraph. The declaration must be repeated at the beginning of each year of course attendance.

The beneficiaries of the scholarships are subject to registration for INPS welfare contributions to the state scheme for atypical workers in accordance with the regulations in force.

Students who are entitled to scholarship referred to in art. 2, paragraph 2, letters a) and b) may choose to waive it, even at the time of admission, nonetheless, they maintain the possibility of attending the doctoral course. In case of waiver of the scholarship, the PhD student is required to pay all the fees related to the current year.

If the holder of a doctoral scholarship, withdraws from the Course, he/she forfeits all further monthly payments, however, he/she retains the right to the payment of the last month commensurate with performance during that period.

If the doctoral student has received scholarship installments referring to a period after his/her withdrawal, he/she is required to repay the amount received.

The withdrawn doctoral student is required, in any case, to notify the Rector one month before the withdrawal. If the renunciation occurs within the first year, the remaining part of the scholarship can be attributed to another student who is without a scholarship, according to the order of the ranking of the admission.

All funded positions referred to in art. 2, paragraph 2, letter c) are to be considered exclusively as positions with a scholarship. Therefore, winners cannot decline the doctoral scholarship (either in full or partially) and continue their doctoral program without the scholarship. Declining the scholarship referred to in art. 2, paragraph 2, letter c) will result in forfeiture of the doctoral position for which they were selected. Consequently, the candidate cannot continue their program if they encounter situations of incompatibility that require them to decline, even partially, the doctoral scholarship (e.g., simultaneous enrollment in medical specialization schools, etc.).
